David S. Miller, *Office Manager, 508-532-7943*

Dear Central Street Residents / Property Owners,

The Town of Ashland invites you to a community forum to notify you about the upcoming pavement upgrade on your street and a potential plan to make Central Street a one –way from the intersection of Main to the intersection of Homer.

The meeting will be held on Wednesday July 22nd at the Selectman’s conference room in the Town hall from 6pm-6:30pm. Please also see attached for details on the project and a map that identifies the segments of road construction on your street, so you can come informed to the meeting. At this time, we do not have accurate dates for construction on the street. We estimate the construction will start last week of July and finish by end of September.

-Please contact the DPW with any questions at rprimetla@ashlandmass.com

Sincerely

David Manugian
DPW Director
20 Ponderosa Rd,
Town of Ashland. MA-01721
