

Housing in Ashland:

Increases in Population, Housing and Affordable Housing

Population and Housing 1960 - 2020

Subsidized Housing Inventory

The Subsidized Housing Inventory (SHI) is a way to measure the amount of affordable housing in Ashland. When Ashland's SHI reaches above 10% the Town will gain more control over Comprehensive Permits for housing, AKA 40B projects.

In August 2022, Ashland's SHI will go down due to a permitted project being delayed.
