

Ashland

Waste Reduction Program

Trash & Recycling Reminders:

- DO NOT bag your recycling in plastic bags. Recycling should be left loose in your recycling cart.
- DO NOT put plastic wrap, plastic bags or plastic wrappers into your recycling. These materials belong in your orange trash bags.
- Please refer to and adhere to the list of acceptable recyclables on this mailing. The listed items are the only materials that should go into the recycling cart.
- All cardboard should be flattened and cut to a size not larger than 3'x3'. DO NOT use cardboard boxes as recycling bins.
- DO NOT overload your orange trash bags. Any trash bags that exceed 50 lbs will be left at the curb.
- StyroFoam is NOT recyclable and should be disposed of in your trash bags.
- Recycling carts should be no further than 3 feet from the road's edge with arrows on the lid facing the street.
- Carts are property of the Town of Ashland. They are assigned serial numbers that correspond to each residential address and should not be moved.
- Residents may personalize their cart for easy identification with a decal or sticker. Do not mark-up cart with paint or markers.
- For repairs to cart wheels or lids, call Waste Management at 800-972-4545.

Latex Paint Disposal

Latex paint is not a hazardous material and can be disposed of with regular trash. To properly dispose of latex paint, please follow these steps:

- 1.) Remove the cover from the paint can and deposit it in your orange trash bag.
- 2.) Allow the paint in the can to dry-out (add "Quick-Dri", clean kitty litter, shredded paper, etc. to speed up the drying process).
- 3.) Place the cans of dried paint next to your trash bags....not in the bags....so the Waste Management driver can make sure that the paint is dry.
